arroweye ®

The following are the approved locations for the Mastercard Secure Symbol

● Any Mastercard program may use the Mastercard Secure Symbol in lieu of the standard printed brand mark.
      -There may be additional charges to use the Mastercard Secure Symbol, reach out to your CSS Specialist for clarification

● Any program that uses a Mastercard Secure Symbol cannot have the standard hologram on the back of card (BOC).

● Programs using the following brand marks utilizes all existing templates located in Arroweye's Resource Library only without a BOC hologram. (https://www.arroweye.com/ resource_library/)

Design Note: Since Mastercard does not require a signature panel this opens up the entire BOC to be fully utilized.

Note: This is a holographic material that is hot stamped on the front of the card (FOC). The blue dotted line is showing where the edge of the clear material is and does not print.
